

MARINE GASOLINE ENGINE

JAPAN
TECHNOLOGY

- ✓ WITH HDPE FUEL TANK
- ✓ RUST RESISTANT
- ✓ HEAVY DUTY
- ✓ HIGH PERFORMANCE
- ✓ FUEL EFFICIENT

ENGINE APPLICATION:
FISHING

DID YOU KNOW?

Marine gasoline engines are specifically designed to power *boats and ships*? These engines are built to withstand the challenges of marine environments, such as *exposure to water, salt, and rough weather conditions*. They come in various sizes and configurations to suit different types of watercraft, providing reliable propulsion for recreational and commercial vessels alike."

Ang **marine gasoline engine** ay espesyal na dinisenyo upang paganahin ang mga bangka at barko. Ang mga makinang ito ay gawa upang mapaglabanan ang mga hamon sa karagatan, tulad ng pagkakatantad sa tubig, asin, at masungit na mga kondisyon ng panahon. Iba't iba ang laki at pagkakaayos ng mga ito upang magkasya sa iba't ibang uri ng sasakyang pandagat, nagbibigay ng maaasahang pagpapatakbo para sa mga pang-rekreasyon at komersyal na sasakyan sa tubig.
